### WONDERS OF THE UNIVERSE I.

Once upon a time there was a girl who could travel through time. She just laid down on her bed, closed her eyes and voila! - she woke up in another age.

One time she found herself in the golden era of England, where ladies wore rich ornate silk dresses and huge ships set their swelling white sails for long, long journeys to faraway lands.

Another time she went to magical Japan. Her hair bun fixed with clips, she joined the samurais for their tea ceremonies in pagoda-like palaces. The girl wandered to farther and farther centuries, even millenia, and finally she arrived into an age where mankind hadn't even roamed the earth. She took long walks in pristine forests, and met curious animals who approached her more and more boldly.  
The girl felt the happiest in this peaceful age.
